Education

M. H. Saboo Siddik College of Engineering — Mumbai, Maharashtra
Bachelor of Engineering in Computer Science (AI & ML) — CGPA: 8.72/10 (Sem VI) — *2023 – 2027*

Experience

Xtron Technologies Pvt. Ltd. — Mumbai, Maharashtra
AI/ML Engineer Intern – Joining / Onboarding — *Oct. 2026 – Present*

- Selected for a project-based internship focused on machine learning, deep learning, and AI application development.
- Expected responsibilities include dataset preprocessing, model training and evaluation, and integration of AI/ML models into software applications.

Projects

SiteSync AI | *AI, NLP, Semantic Matching, Web Development* — Live Demo

- Developed and deployed an AI-powered infrastructure project management web application on Vercel.
- Designed a pipeline to extract construction progress information and link execution reports to planned schedule activities using semantic and fuzzy matching.
- Designed planner review and progress tracking workflows to improve visibility into planned versus actual work.

Mr. Doc – Medical Assistance Platform | *React, Node.js, Express.js, MongoDB*

- Developed a full-stack healthcare platform integrating doctor appointments, medical records, prescriptions, and emergency contact features.
- Implemented authentication, REST APIs, and database operations to manage user profiles and healthcare data.
- Developed an AI chat interface with rule-based fallback for preliminary health information assistance.

Smart Waste Segregation Monitoring System | *ESP32, IoT, React, Node.js, SQLite*

- Developed an IoT-based waste monitoring prototype using ultrasonic and moisture sensors to track bin fill levels and waste conditions.
- Built a web dashboard with monitoring cards, analytics, disposal alerts, and reporting features.
- Integrated ESP32 sensor data with a Node.js backend and SQLite database for monitoring and analysis.

Automatic Plant Irrigation System | *IoT, Sensors, Automation*

- Designed an automated irrigation system to monitor soil conditions and support watering decisions.
- Applied sensor-based automation to reduce manual monitoring and support efficient water usage.

Mushroom Classification | *Python, scikit-learn, Random Forest*

- Developed a machine learning classification project using structured mushroom dataset features.
- Applied data preprocessing and Random Forest classification to predict mushroom categories.

Technical Skills

Languages: Python, C, C++, JavaScript, SQL, HTML, CSS
Frameworks & Technologies: React.js, Node.js, Express.js, REST APIs, WordPress
AI/ML Libraries: scikit-learn, TensorFlow, Pandas, NumPy
Databases: MongoDB, MySQL, SQLite, Firebase
Developer Tools: Git, GitHub, Docker, AWS, VS Code, Vercel
Hardware & IoT: ESP32, Arduino, Raspberry Pi, Sensors
Other Skills: Generative AI, Prompt Engineering, Problem Solving

Leadership & Extracurricular

IEEE Student Branch Mumbai, Maharashtra

Leadership Roles (Core Committee Head Treasurer(Current), Joint Treasurer, Joint Event Management)

- Contributed to student branch Treasurer, coordination, financial records, event planning, and operational responsibilities.
- Joint Treasurer: Assisted with financial coordination, records and event-related responsibilities.
- Joint Event Management: Supported planning, coordination and execution of technical events and student activities.

Certifications

AWS Cloud Foundations | *Amazon Web Services (Pursuing)*
